Introduction

These MYOB PayGlobal Employee Self Service (ESS) release notes describe the software enhancements and issues resolved in release version ESS 5.7.1.0
If you are upgrading from an earlier version than ESS 5.7.0.0, then you need to download and read the relevant release notes from the website.

DISCLAIMER

*Information in this document is subject to change without notice and does not represent a commitment on the part of **MYOB NZ Limited** and **MYOB Australia Pty Ltd**. While every effort has been made to ensure that the information contained within this document and the features and changes described are accurate, **MYOB NZ Limited**, and **MYOB Australia Pty Ltd** cannot accept any type of liability for errors in, or omissions arising from the use of this information.*

Notifications

This section outlines important information regarding this release.

Dependency on PayGlobal version 4.72.0.0

This version of ESS is dependent on a PayGlobal version of at least 4.72.0.0. Do not upgrade to this release of ESS until PayGlobal has been upgraded to at least 4.72.0.0.

Dependency on .NET Framework 4.8 Runtime

If your server is below Windows Server 2022 you will need to install the .NET Framework 4.8 Runtime which you can download from Microsoft. Once the .NET Framework 4.8 Runtime is successfully installed, it is necessary to restart your server for the changes to take effect.

ESS support for MS Server 2022

ESS has been tested and can now be confirmed as being compatible with the MS Server 2022 Operating System.

**DO NOT UPGRADE TO THIS RELEASE UNTIL PAYGLOBAL HAS BEEN
UPGRADED TO AT LEAST 4.72.0.0**

Enhancements

This chapter describes software enhancements in this release version.

All Countries

Active Items Sorting and Filtering

This release of ESS introduces an enhancement to the way the user can select which Active Items they see.

Active Items displayed in both the 'Current' and 'History' tabs can be filtered by any combination of the following:

- Type
- Employee
- From Date
- To Date
- Status

Active Items can also be sorted in ascending or descending order by clicking the column header. When sorting is applied Active Items across all pages will be ordered and the first page of Active Items will be presented.

Additional information

Help URL

The Help file for this version has changed.

The current Help **base root** URL is now: <http://customer.payglobal.com/manuals/ESS/5.7.1.0>

Version Compatibility

If the PayGlobal version is 4.75.0.0 or more, then it will be necessary to run the ConfigUpdater.exe utility within ESS after this upgrade is performed.
